

TELL US WHERE IT HURTS.

High Billing Costs

Low Patient Satisfaction

Inconsistent Chart
Management Procedures

Scheduling Inefficiencies

High Transcription Costs

Inadequate Prescription Support

HIPAA Compliance

Inconsistent Documentation

Professional Liability Risks

Lack of 24/7 Remote Access
to Patient Records

Secure Patient Information

Bring us your pain.

digiChart OB-GYN is an Internet-based electronic medical records (EMR) solution with comprehensive functionality targeted to the specific pains of the OB-GYN practitioner.

digiChart is the only EMR solution provider working directly with the American Council of Obstetricians and Gynecologists (ACOG) to incorporate ACOG's changing requirements into its solution. And because digiChart clients access the solution via the Internet, these enhancements are available to them immediately.

PAIN RELIEF FOR THE DOCTOR

Tell Us Where It Hurts.

Now more than ever, successfully operating an OB-GYN practice is an exercise in pain management - *business* pain management.

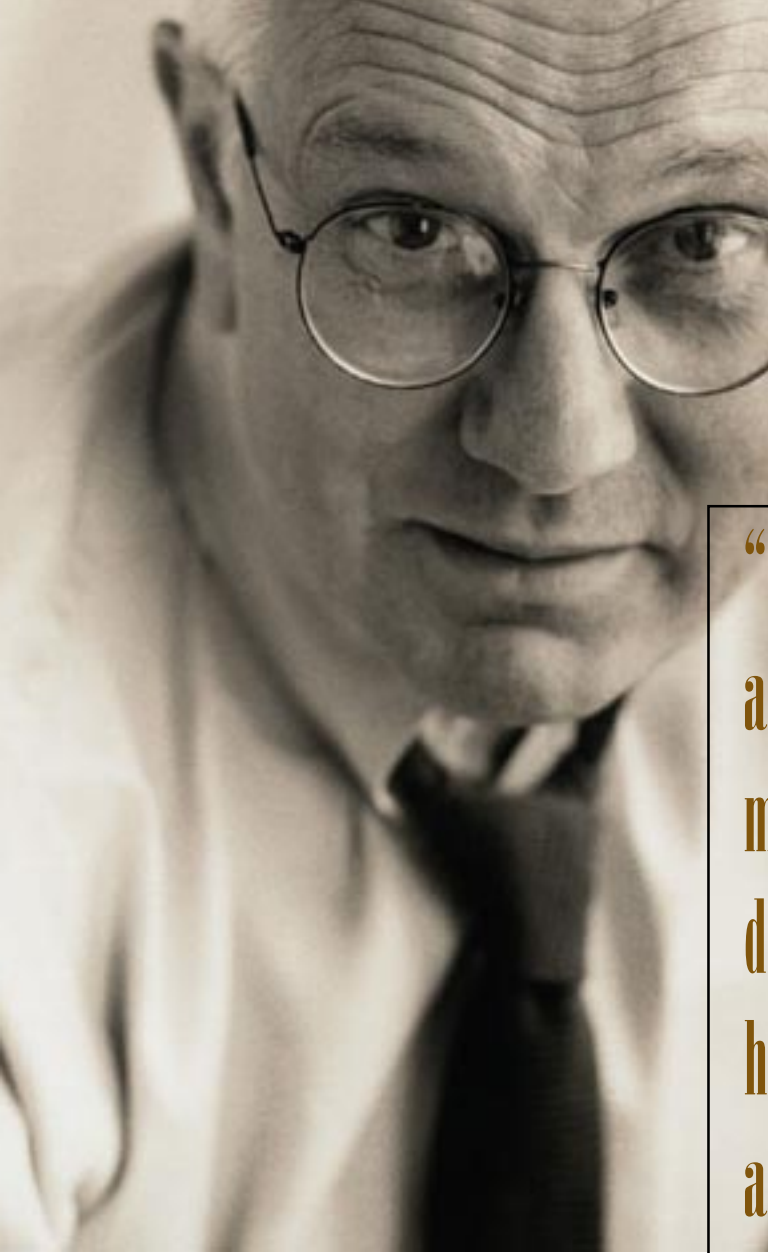

- Billing • Scheduling • Documentation
- Prescriptions • Transcription
- Chart Management and Access
- Patient Privacy • Liability Reduction

Pain in any of these critical areas will weaken your practice, degrade your standard of patient care, cost you time and money, and jeopardize HIPAA compliance.

digiChart OB-GYN is an Internet-based electronic medical records (EMR) solution with comprehensive functionality targeted to the specific pains of the OB-GYN practitioner.

digiChart is the only EMR solution provider working directly with the American Council of Obstetricians and Gynecologists (ACOG) to incorporate ACOG's changing requirements into its solution. And because digiChart clients access the solution via the Internet, these enhancements are available to them immediately.

Bring us your pain.

“ If my customer sends me an electronic order 10 minutes from now, demanding delivery in 12 hours, with 100% accuracy,

“The customer is always right.”

In today's supply chains, it's not just cliché, it's cold, hard fact. For suppliers, the expectations are high, and the price for failing to meet them even higher.

CMS*iS*, from CMS Manufacturing Systems, enables you to satisfy customer performance requirements and lower your costs by maximizing control over your internal resources and your suppliers, with robust, fully-integrated and web-enabled manufacturing functionality.

**Then I've got 2 choices:
Get it done, or get out of
the business.”**

Your customers set
the destination.

world-class **Function**

deserves

World-Class Presentation

When you buy CMS software, you buy world-class function.

But function is neither **intuitive** or **interactive**.
Our solution?

This new-look user interface promises simple, streamlined access to the full range of functionality CMS software has long provided.

CMS users will instinctively navigate the software in a familiar point-and-click browser environment, enabling them to exploit the robust functionality beneath.
