

"WE'VE SEEN  
DRAMATIC IMPROVEMENT IN  
ON-TIME DELIVERY."

## CMS Manufacturing Systems Customer Since 1999

"The bowling sports market has become a e-commerce driven market, global in scope. Ebonite faced a serious set of challenges as we endeavored to become a world-class manufacturer competing internationally. The industry's distribution system evolved so rapidly over the past five years that Ebonite had to make some significant improvements, particularly in our order-to-ship times and our order accuracy or we faced stagnation - or worse. That's when we called CMS.

With CMS/400, we saw dramatic improvements in on-time delivery. And the control we now have over all our internal processes enables Ebonite to squeeze maximum efficiency out of all our resources, while meeting the expectations of extremely demanding customers.

CMS/400 has literally transformed our business."

- Bill Scheid  
President  
Ebonite Inc.
